Specification:

The KAUP Four / Eight Pallet Handler type T419-2-4/T419-4-8-L can transport up to eight pallets at the same time and speeds up loading and unloading of trucks, wagons and storage racks considerably. The innovative visibility improved design ensures a good view to the fork tips and load. The practice orientated construction from T-profiles and C-profiles ensures highest stability and long operating hours with extended intervals between servicing and a minimum of required maintenance.

Qualities:

- Four / Eight Pallet Handler for heavy duty tasks
- Good residual capacity
- Good visibility conditions
- Synchronized for quicker working speeds
- Independent sideshift serially
